Assignment 1: Weebly Creation

1) Go to Students.weebly.com
2) Log in with the info Mrs. Hall gave you
3) A box will pop up and ask you to make a domain name. Please create an appropriate domain name using YOUR FIRST AND LAST NAME, as well as "Digital Arts"
4) A video will pop up – go ahead and watch it for some tips and tricks to navigating the site.
5) Once you close the video, you can start building your weebly page! Please follow the directions below:

Assignment 1: Weebly Creation (50 pts)
1) Go to the DESIGN tab in the top
   2) Pick a theme that has a small/narrow header, and one where you can change the picture of the header. *(Your netbooks are so small it can be hard to work with a theme that has a HUGE header because you have to keep scrolling down all the time to see any of the things you posted.)*
   3) Pick a color or background that you like best
   4) Pick fonts that you like best

5) Now click on the PAGES tab (it's next to the DESIGN tab in the top)
   6) Click the orange "Add Page +" button, and add 2 pages (make sure you click "no header" on the page layout):
      - **My Assignments**
      - **Responses**

7) **Now click "Publish" in the top right corner to save your edits!!! *Mrs.Hall can NOT see your edits until you do this final step.***
   8) It will clarify your domain name, just hit "okay"
   9) It will ask you to categorize your site. Choose "Education" then "Class Project".
   10) It will then publish and a blue link will appear! Click on the blue link to check out your site! You can always go back and make changes.
